

Hemi Himmler

Product Designer

Richmond, VA · 804-306-4696 · hemi.himmler@gmail.com · seven-seven.me

Summary

Product Designer with experience spanning user research, interaction design, wireframing, prototyping, and high-fidelity UI for digital products. Skilled in Figma, Adobe Creative Suite, and visual design, with a strong foundation in usability, typography, layout, and accessibility. Known for translating complex workflows into intuitive experiences and refining designs through user feedback and testing.

Experience

Seven Seven (Freelance) · Product Designer Jan 2025 - Present

- Design product experiences for web and mobile products, moving from research and wireframes through polished, high-fidelity UI designs in Figma
- Use user research, usability feedback, and interaction design principles to guide design decisions throughout the design process
- Simplify complex workflows and information into user-friendly interfaces with clear typography, layout, and visual hierarchy
- Create interactive prototypes and test them with users to refine designs and validate usability before development
- Use AI tools such as Claude Code and Figma Make to explore ideas, speed up iteration, and build working concepts, websites, and apps

Luck Companies · Senior Support Technician · Jun 2023 - Jan 2025

- Supported executives with Mac, PC, networking, and Outlook issues across office and home environments
- Led technical projects, including the expansion of the Executive Wing and new office technology deployments
- Created how-to guides and documentation that helped over 200 employees learn new tools and security practices
- Partnered with Infrastructure and Finance teams on PC upgrades, Intune, Azure, networking, and security initiatives

Meta · Field Support Lead / Enterprise Support Technician · Oct 2015 - Nov 2022

- Led technical projects supporting 14 office builds and upgrades across 11 existing locations
- Coordinated field operations by matching technicians to project priorities
- Built internal tools and processes that reduced support requests by 35%
- Trained technicians, onboarded employees, and maintained infrastructure standards across the PNW region

Apple Inc. · Instructional Designer / Lead Creative / Lead Genius · Oct 2003 - Oct 2015

- Designed and delivered training programs for customers and employees, from new product launches to market-wide initiatives
- Taught customers through one-on-one coaching, workshops, and group presentations
- Mentored and onboarded employees while supporting technical operations
- Built training content and mentoring programs used across all Apple Store locations in the US

VCU · Adjunct Instructor - Graphic Design Department · Aug 2002 - Jun 2003

- Taught design theory and digital tools including Adobe Photoshop and Illustrator
- Guided students in visual design and composition.

Dave Matthews Band · Graphic Designer · Sep 2002 - Oct 2003

- Designed and maintained fan-facing websites and digital assets
- Contributed to merchandise design, photography, and visual direction
- Supported fan club operations and created assets used in marketing and merchandise
